

Jj Bassig

93-B E. Mendoza Street, Buting • Pasig City, 1600 • jjbassig30@gmail.com • +639947668735

Job Objective

To obtain an entry-level or internship position in software or web development where I can apply my programming skills in building reliable, user-centered systems and scalable backend solutions.

Experience

Developer, Pillar Scholar Support System (Volunteer Project – Victory BGC) May 2026 – Present

- Built a support and ticketing website using Laravel, Blade, and Livewire for scholars to raise concerns to staff.
- Implemented role-based access control and a structured ticket lifecycle with conversation history for auditability.
- Added knowledge base integration, escalation logic, and a staff dashboard for ticket monitoring and management.

Developer, One Shared Services (Volunteer Project – Victory BGC) May 2026 – Present

- Joined an existing internal platform handling facility booking and shared services for church services.
- Worked within a Laravel 12, Blade, Livewire, and SQLite codebase with audit logs, and real-time notifications.
- Contributed feature work and iterative improvements across multiple admin console modules.

SPES Administrative Assistant (Pasig Animal Bite Treatment Center) July 7 – August 1, 2025

- Assisted in managing 80–120+ patients daily by recording, interviewing, and verifying patient information.
- Encoded and maintained accurate patient records using the Electronic Medical Record system.
- Conducted health education sessions on proper animal bite management and follow-up care.
- Maintained confidentiality and accuracy of sensitive medical information.

Admin Staff in Barangay Buting, Pasig City (10-Day Work Immersion Course) February 19 – March 1, 2024

- Processed barangay documents including indigency, residency, clearance, and business permit requests.
- Handled document encoding, filing, and record-keeping using Microsoft Word and Excel.
